**LiquidAgents Healthcare Announces the Signing of a Two-Year Contract
With the New Mexico Travel Registry Program**

Dallas, Texas -- April 25, 2006 -- LiquidAgents Healthcare, a leading healthcare staffing and comprehensive workforce procurement agency, announced today the signing of a two-year contract with the New Mexico Travel Registry Program, in the Travel Nursing Program. The new agreement will be effective June 1, 2006.

The purpose of the New Mexico Travel Registry Program is to enhance the pool of qualified staff for a select group of hospitals and healthcare institutions in New Mexico, more than 30 of which participate in the Travel Nursing Program.

Under the agreement, LiquidAgents and the other selected agencies will be securing traveling healthcare personnel services for participating members as part of a group purchasing arrangement. There are currently more than 50,000 hours of nursing staff being filled each month, and these numbers are expected to increase.

"The New Mexico Travel Registry Program is a highly regarded cooperative purchasing program," said Sheldon Arora, Chief Executive Officer for LiquidAgents. "We are very pleased that LiquidAgents was chosen to work with the New Mexico Travel Registry Program in such a key area of its operation. The signing of this agreement is another indication that LiquidAgents has emerged as a leader among healthcare workforce procurement agencies. I am confident that the New Mexico Travel Registry Program will experience the same high level of service that we have delivered for our other clients. I look forward to watching our relationship mature and exceed the high expectations we have mutually set."

The New Mexico Travel Registry Program joins the IASIS Healthcare System and Memorial Hermann Healthcare System, among others that have signed with LiquidAgents in 2006. LiquidAgents continues to be one of the fastest growing healthcare workforce procurement agencies in the United States. Other LiquidAgents clients include Baptist Health System in San Antonio, American HealthCare Staffing Association (AHSA), Martin Memorial Health Systems, Southwest Healthcare System, and Abrazo Health Care.

About LiquidAgents, LLC

Founded in 2004, LiquidAgents provides workforce procurement solutions for the healthcare industry. LiquidAgents' search consultants use proven identification and selection methods to recruit choice healthcare talent, including nurses and other allied health professionals, and place them in hospitals and other healthcare institutions looking to secure traveling healthcare personnel. LiquidAgents' parent company, esoftsolutions, has been ranked 52nd among the entrepreneurial growth leaders on *Inc* magazine's ranking of the 500 fastest growing private companies in the nation, and has also been named to the Dallas Business Journal's "Best Places To Work" list the past four years in a row. Headquartered in Richardson, Texas, LiquidAgents also has a regional office in Needles, Calif. For more information, please visit us online at www.liquidagents.com or call 1.888.301.9333.
